

# Womens Human Rights Step by Step: Strategy Workbook

The Strategy Workbook explores the role of law and its effect on women, and presents a conceptual approach to identifying and analyzing the major rights issues facing women in the world today. It presents a step by step process for planning and evaluating a womens human rights advocacy strategy that covers issues involved in choosing the problem, analyzing the problem, defining outcomes, designing the strategy, writing the plan and assessing the effort. This Strategy Workbook is intended for use by individuals, groups and coalitions in planning for advocacy. The Strategy Workbook supplements the material in Womens Human Rights Step by Step, helping advocates and activists deepen understanding of key concepts involved in human rights advocacy by working with analytical tools, a series of definitions and a set of steps for integrating concepts into concrete action strategies.
