

Sauce Pack No#2

Sauce Pack No#2 By Hunter Darkly A delicious bundle of four previously released titles lashed together in a smutty package of naughtiness. Includes: The Lady and the Lad Lady Constance in all reality should be very happy with life. After all, its not everyone who lives in a fine Georgian mansion with an attached stable and horses, beautiful gardens, and attentive staff. Its not everyone who is married to a rich and important Lord and therein resides the problem and the cause of all her woes Lord Alyn is a deeply self-satisfied and self-serving individual with a malicious spite just bubbling beneath the surface. Its just such a shame that it has taken Lady Constance twenty-odd years to realise it. A woman of her class learns to put up with such things after all. Lady Constance has grown very adept at turning a blind eye to her husbands indiscretions. The unfortunate incident with the serving girl is to change all of that, driving her into the arms of Tommy, the tousle haired stable-lad, and into a quite devious plan of her own. Wedding Belle John likes nothing more than to see his fiancée Karen happy. Shell be overjoyed to find out that her best friend, Jenny, can make their wedding. What John doesnt know is just what effect her arrival will have on him. As for Jenny, she likes to play games; games with consequences. When they find themselves alone, Jenny proposes a little role-play that John might well find too much to resist. But is it all just a game? Excerpt: I wasnt sure what exactly her eyes were telling me as she spoke, maybe it was a trick of the sun, but she looked a little sad, a bit regretful, as if she had more to say. Anyway, come on inside, you must need a drink. I gestured for her to walk on ahead up the path. It was a gentlemanly act and I was sure glad of it because her bottom was beautiful; large twin peaches moving against the denim of her skirt. Something clicked inside of me, a

switch that released the first murmurings of desire, tugging softly somewhere in my groin. My powerful mind's eye made the skirt invisible, removing it swiftly, imagining those sporty little panties rubbing her soft skin, the sweet lips between her legs squeezing together as she walked. I wanted to feel guilty about it but couldn't. If I'd seen her on the street, walking along on this bright sunny evening I would have had the same thoughts - all part of being a man. It wasn't as if I was going to do anything about it. *Hes Watching Me* Annabel has never wanted anyone so badly. She knows it is wrong. She should leave it at that; just an unfulfilled longing. If only he wasn't watching her so closely. If only her closet no longer smelled of his cologne. If only she could let him know. They both know that it is a game between them; their special secret. But they will be alone soon, and doors can always be opened and watching can cease and become actions. Can they resist the temptation that burns at them both; will they succumb to their hidden desires? *Awake I Dream of Annabel* Robert had everything in life; a wife, a successful daughter, a well-respected job in the City... He could be quite satisfied with his middle-aged existence. He suspected that most of his peers were as bored as he was and that it was just the way things were. People in his position just didn't rock the boat. It wasn't the done thing. That was before the arrival of Annabel. That was before he forgot who he was and cast aside all morals and scruples for just one night with Annabel. This short erotic tale includes sexual scenes between consenting adults. Extract: She'd made her entrance mid-flip, a burger held delicately in my skilful tongs; a master at work who'd momentarily fumbled and sent the patty bouncing from the grill. I'd heard the yelp of mother's dog as it'd grabbed the hot spinning disc in its jaws, snatching at it and dragging it in burning stages to some unseen corner of the garden for de
