

## Fingers of Flame (Pesaro: A Tale of Fire and Ice Book 1)

The year is 1525, a dangerous and violent period tinged with wonder and riches to be had. In Italy, the fate of the States is in question. The French have invaded in an attempt to seize the rich and prosperous Italian lands as their own. Against them stand a coalition of men and elves, drawn from the Holy Roman Empire and Spanish kings forces. Standing beside them are mercenaries, drawn like moths to a flame, eager to take plunder and loot. Alessandro della Rovere is one such mercenary lord. He has thrown his hat in with the defending coalition. Yet when the fierce battle outside the walls of Pavia is over, it is not merely gold that he takes for his fill. A human cargo. Prisoners, to be ransomed back to their families. The real prize. Within the cowed ranks of those unlucky few there is Lise, a French elf from Toulouse. A young, solitary noblewoman far from home. In an act of generosity, Lise is given to Alessandros daughter, a young fire mage by the name of Camilla. She is to be her tutor, her guide, but more importantly the lonely childs friend. However, as the years pass and Camilla grows into a proud and passionately independent young woman, her feelings towards the elf turn from friendly to something so much more. Something confused and immoral. Sinful and so very forbidden. Follow Camilla and Lise as they grow up together in this 60,000 word historical fantasy novella, the first book in the Pesaro: A Tale of Fire and Ice series. There are themes of forbidden lesbianism, coming of age, domination and submission, control, dubious consent, heterosexual sex, oral sex, anal sex, human and elf interracial pairings, sensory deprivation, blasphemy, some violence (non-sexual) and attempted breeding to be found here. To be continued in Breath of Ice.
