

Steps to Success and Power

Inspiration to character-building and worthy achievement is the keynote of the present volume, its object, to arouse to honorable exertion youth who are drifting without aim, to awaken dormant ambitions in those who have grown discouraged in the struggle for success, to encourage and stimulate to higher resolve those who are setting out to make their own way, with perhaps neither friendship nor capital other than a determination to get on in the world. Nothing is so fascinating to a youth with high purpose, life, and energy throbbing in his young blood as stories of men and women who have brought great things to pass. Though these themes are as old as the human race, yet they are ever new, and more interesting to the young than any fiction. The cry of youth is for life! more life!
