

## bad habits: A Romantic Soap Opera

Simone Livingston wants desperately to start again. She and her husband Keith have both agreed that their marriage is worth saving. Despite the deep betrayal and lies she's suffered thanks to his infidelity. Their arrival in a small town run by the wealthy conniving Hollingsworths tests her faith in her husband and the sacred vows of her marriage. And when Keith's dastardly deeds unveil who he truly is Simone's bad habits of forgiving and forgetting despite her suffering brings about unbelievable consequences. The one man she shouldn't trust throws a lifeline to her, and soon it's a race against time to fight for her future, escape the present that threatens to destroy her, and save everyone she loves. Kim Jensen is a widower. The death of her firefighter, beautiful husband, while pregnant with their twins devastated her. Two years later she has found a way to cope. A dark secret that she keeps from the nurses and hospital she works for. That is until she meets the dashing handsome Dr. Mathew Donnelly. Immediately he steps into her life to become the hero she never asked for. But will her bad habits put their careers and new found love in jeopardy, or teach her the most valuable lesson in second chances? Both sisters struggle to survive pain, betrayal, love lost and the prospect of new love gained. Bad Habits is not your typical love story. It's an exploration in the human spirit. Through suffering we achieve triumph, through grief we learn the healing power of letting go, and through change of spirit we become the women we are destined to be. A graphic, explicit tale that explores the avoided topics in romance, infidelity, drug addiction, self-loathing, and ultimately forgiveness with a touch of love.
