

New Jersey Injury Claims: Who to Hire, What to Do, and Know Your Options

The idea of being involved in a car or work-related accident appeals to practically no one. Yet it is almost certain that at one time or another, nearly everyone in New Jersey will be the victim of some sort of accident. Serious injuries can result, drastically altering your life and the lives of your loved ones. If you or someone close to you has been hurt in an accident and is looking for advice on pursuing an injury claim, reading this book is a good place to start. New Jersey attorney Samuel Gaylord and his associates at Gaylord Popp, L.L.C., have built a solid reputation helping injury, work accident and disability claimants get full and fair compensation for their injuries. In *The Ultimate Guide to Accident Cases in New Jersey Informing the Injured, One Claimant at a Time*, Mr. Gaylord explains what you need to know about your case BEFORE the insurance adjuster gets to you with their papers for you to sign. Among topics discussed are understanding lawyer advertising, finding the right attorney for your case, avoiding tricks insurance companies play to get you where they want you and bypassing mistakes that can sink your case before it even gets off the ground. An accident can happen anytime, anywhere. When it does, be proactive. Know your rights and responsibilities as an injured accident victim. That way, you and your attorney together, as a team can decide the best approach for getting you the compensation you deserve. The guidance Mr. Gaylord offers in his new book will help you on your way to that end.
