

Book 3: Navigating Xcode 5 - iOS App Development for Non-Programmers: The Series on How to Create iPhone & iPad Apps

After reading this book, I now have a complete understanding of Xcode! Kevin's unique way of teaching makes it easy to learn through text and lots of videos! Kevin is simply the best at teaching the non-programmers like myself. Don't just get this book, get the whole series! It's well worth it! - iBook Reviews

If you're an experienced developer attempting to break into iOS development, or if you are totally new to programming and just trying to make a start, I recommend the entire series (Book 1, 2, and 3). They WILL get you over the hump, and get you going in mobile development on the iOS platform! - Earl D'Extensive, In-Depth Coverage of Xcode 7!

Mastering Xcode and Swift contains the most in-depth coverage of Xcode that you will find! It is a deep dive into the tools and technologies of Xcode and Swift. Includes Step-By-Step Instructional Videos!

Mastering Xcode and Swift includes over a dozen step-by-step instructional videos that help you perform the detailed instructions in the book. What You Will Learn

This book helps you master techniques including: Creating an app architecture that lets your app run on iOS devices, the Apple Watch and Apple TV How to use all of the iOS user-interface controls Best practices for implementing Core Data In-depth coverage of using table views to manage lists of data Making the most of the user interface Auto Layout model Mastering Dynamic Type Implementing In-App Purchases And much more!

Real-World Sample Code Projects

This book comes with nearly 30 sample code projects that demonstrate the technologies of Xcode and Swift. It also includes classes you can add to your own projects that make building iOS apps far easier!

About the Author

Kevin McNeish is a featured writer and blogger for iPhone Life magazine as well as author of the best-selling iOS App Development for Non-Programmers book series, winner

of the prestigious Publishing Innovation Award. Kevin is creator of iOS apps including iElectionDay (awarded iPad App of the week), Robot Tic-Tac-Toe and is also Chief Software Architect of Oak Leaf Enterprises, Inc. He has a knack for explaining difficult concepts in a way that you can truly understand. Learn to create Apps for the iPhone & iPad. Scroll up and click the Buy button now!
