

Collide (Mills & Boon Spice)

A childhood accident left Emmaline vulnerable to disturbing fugue states that last minutes but feel like an eternity. The blackouts are unsettling but manageable... until she meets Johnny Dellasandro. The painter gained fame in the 70s for his debauched lifestyle and raunchy art films. His naked body achieved cult status, especially in Emms mind, shes obsessed with the man, whos grown even sexier with age. Today he shuns the spotlight and Emm... until she falls into a fugue on his doorstep. In that moment shes transported back thirty years, crashing a party at Johnnys place. The night is a blur of flesh and heat that lingers long after shes woken to the present. It happens again and again, each time-slip a mind-blowing orgy, and soon Emm cant stop, though every episode leaves her weaker. Shes scared by whats happening, but shes even more terrified of losing this portal to the Johnny she wants so badly. The one who wants her and takes her every chance he gets.
