

Sailor Be Wary

James Bailey is a gay man who really likes his life in the United States Navy, especially since Dont ask; dont tell came to an end. He is one of the few sexual outlets for hundreds of men on an aircraft carrier, and he has at least as much fun as his partners do in their many sexual escapades. This is the story of one of those fun times, when he starts by sucking a big, black cock and ends up with the same massive tool in his ass until both men climax. This is a very short story, only about 2,600 words, describing one encounter out of many between Jim and one of his favorite partners. The other man is straight but when there are only other men around, that is where sexual action has to be found. Although short, the story is written in great detail and the language is graphic and explicit so this book is intended for mature adults only.
