

Into The Arms Of A Big Fucking Alien (Sci-Fi Erotica)

Adults 18+ only: This 4000 word novelette contains M/F and alien sexual scenes involving untraditional sex practices, and other related themes. Into The Arms Of A Big Fucking Alien, is the story of a young woman left alone on a large space ship because everyone else was killed off by a virus--except for her. She spots an inhabitable planet nearby and makes a rough landing and meets, and greets, a telepathic human alien with a set of huge space junk. Things only get better after that as thoughts of rescue become a dim memory.
