

Haute Couture

This is a survey of the history of haute couture, from the formation of the House of Worth in mid-19th-century Paris to the major designers of the present day. The book focuses on the highly skilled crafts that are essential to the production of haute couture. Separate chapters examine tailoring techniques and finishes, weaving, draping, and the intricate decoration produced by embroiderers, feather-makers, and other craftspeople on whom couturiers rely for the execution of their ideas. [This book was originally published in 1995 and has gone out of print. This edition is a print-on-demand version of the original book.]
