

## Chicago from the Air

A photographic journey through the clear skies over one of USAs most exciting cities, an urban landscape of great contrasts. Chicago not only boasts some of the USAs greatest skyscrapers, but it is also the Green City, an endless lawn bounded by the lapping waters of Lake Michigan. Chicago is also the home of jazz and the blues, and the capital of black literature all of which were born out of the violence and hardships of the city streets. Chicago is also the city of Irish immigration and the city of the American New Frontier. - City of Superlatives - The Loop - The Architecture - The Grand Park - The Old Town - The Lakeside - Southside -
