

Hiding In The Woods (Paranormal Pregnant Wolf Shifter Erotic Romance)

He turned her over and she obeyed, her knees in the soft dirt as she sloped her back and presented herself to her supernatural suitor, this beastly king. Anna and David's marriage was languishing under the weight of a fixer-upper house and his own anger issues, but it was a burden she believed she could bear. She filled her days with improvement projects while he commuted to and from his factory job and she put her sights on the future, where she believed the monotonous grind of their daily life would be rewarded with family and something approaching love. But when Anna ran into the woods to escape a fight with David, she had no idea she'd stumble onto something more dangerous than his drunken temper, or that it would follow her home.
