

Pixies Kiss (paranormal erotica, M/f) (Pixies Desire Book 3)

After finding out about Rudions true plans for her and the rest of the pixie society, Coriella must both heal and save everyone from Rudions rage. Luckily shes got resourceful Jack, her human lover, on board to help save the day so they can explore their new romance further. EXCERPT: Jack turned to her. Did you? No, she answered his unspoken question. He still lives. As much as I might wish he was dead. She put her head in her hands, fisting her fingers in her hair. How many of these gomas have attacked my people? How many of them were not accidents like we had thought? How many of those attacks were Rudion directing them to kill? Jack finally gave up on getting his rifle back from the insides of the dead beast and sat down next to her on the bed. He took her gently in his arms and let her tremble against him as her rage and her fear and her terror ebbed away. In his arms, she found comfort. In his arms, she felt safe. He kissed the side of her neck, bit her skin gently, and she thrilled to it. He might have only just met her, and they might have only been together the one time, but he seemed to know everything she liked without her having to tell him. His hands smoothed up her back, to the delicate skin between her wings, and she trembled now for entirely different reasons. When he trailed his fingertips along the tops of her wings she lost all control. And she was still aroused from what Rudion had done to her. Now she could sate herself on Jack like she wanted to. He was hers to use. She pushed him down on his back onto the bed and he laughed at her forcefulness. She straddled him, her legs holding tightly around his, as she mashed her wet and swollen clit down onto his dick. She felt it stir under her and she wanted it to be stiff and hard against her so badly that she ached for it and whispered into his ear how much she wanted him to be in her.
