

How to Draw Pets: with Colored Pencils, Colored Pencil Guides With Step-by-Step Instructions, How to Draw Horses, Fish, Dogs, Cats, Cute Animals, for Kids and Adults, How to Draw Lifelike Animals

This book will take you through the process of drawing beautiful animals with colored pencils. You'll learn how to create the main lines of your picture with an easy to use grid method for breaking down each section of a reference picture into smaller, manageable pieces. Every tutorial consists of illustrations with short explanations for each step based on the author's personal experience. Since the author is a self-taught artist, the material is presented clearly with friendly instructions that everyone can follow, instead of like the stuff found in educational materials or many other how-to-draw books. The book is written and illustrated by a recognized fine artist, whose unique drawings are popular around the world. This book also covers techniques for creating textures like fur, skin, that are traditionally difficult to make appear realistic. You'll learn tips for blending colors and creating subtle gradients in your drawings. You'll also learn the pros and cons of using colorless wax blenders and in what situations they are best used. This book can be a perfect gift for animal lovers particularly children, since the book contains more than 150 images. This book is a great choice for anyone who appreciates visual art, whether you want to create it yourself and learn through close observation, or just peek behind the curtain to see how such work is done. Enjoy learning! These tutorials are included in the How to draw animals with colored pencil book by this author. <http://www.jasminasusak.com/>
