Have you ever got blocked while writing, painting, and photographing? Do you want to get your creative juices flowing? Do you need motivation to be creative? Did you think to yourself I know I have it within me, I just need to get it out? Do you want to make money by selling your craft? Did you answer yes to any of these questions? Then this is definitely the book for you! This eBook is broken up into seven sections that will help guide you through the process of prioritizing creativity in your life. You can choose to take the 7 days and walk through each section and exercise each day, or you can work through each section at your own pace, following each section and exercise as you're ready to. So much of creativity depends on your own pacing and your knowledge of yourself as an artist. You are an artist. It doesn't matter if you're a painter, a musician, a writer, knitter or crocheter, a scrap booker, a sewer designer, an architect, or if your dream is to complete a different kind of creative project. Just because your creative medium of choice may give you another label doesn't mean that you're not an artist. You dream, you love, and you create. This might come as a shock to you, but the world needs your art. Humans are interconnected through the experience of life, and we all appreciate art in different ways. We wear art, we hang art on our walls, we read art, we buy art, we listen to art, and we use art to keep us warm in the winter. Bottom line, everyone craves art but not everyone can create art. The world needs your art, and you can use it to create a connection to someone, to make their lives a little more enjoyable. The truth is that your art sometimes finds you in unexpected ways, and like a seed, it roots and grows until you have a desire to

complete a project. Through these simple and proven strategies, you can become more creative, happier and avoid boredom in your everyday life by using a creative outlet. In this book, you'll learn exactly that. The sections that Andy goes into in this book include finding out what you want to do, seeking inspiration, preparing your workspace, committing to a schedule, showing up, allowing mistakes and staying on target by keep showing up. This short book gets to the point and discusses all the necessary topics in a short time that you need to get creative. This book offers all the right tools; just add yourself. ***Limited Edition*** Download your copy today!
