

Quilt Artistry: Inspired Designs from the East

Quilt Artistry will transform the way that readers think about quilts. Author Yoshiko Jinzenji began quilting after she came upon quilts made by Canada's Mennonite people and was deeply moved by their resonant, sacred quality. The richly minimalist quilts she makes today are as powerful as the works that originally inspired her. Quilt Artistry presents her unforgettable quilt creations in 100 color photos and in 300 black-and-white photos and diagrams. Detailed patterns and instructions are included for all projects shown. In addition to full-size quilts, Jinzenji demonstrates how to make quilted pillows, clutch purses, necklaces, decorative objects, table mats, tiny miniature quilt mandalas, even a hammock. There are a total of 90 projects, for everyone from beginners to the most advanced quilters. Jinzenji is also a superb natural dyer and often makes quilts from fabric or fiber she colors herself, including very subtle and rich bamboo-dyed white silk. In other quilts she uses antique fabric collected from around the world, and in still others vibrant tropical natural dyes or innovative synthetics such as black metallic cloth created by well-known textile designer Junichi Arai. No matter what the material, her quilts all have a remarkable quiet power. They resonate with a spiritual quality like that of classic North American quilts, but one that is rooted in an Asian, even Buddhist sensibility. Jinzenji has always wanted to give something back to the Western quilting tradition that first motivated her own work, and with this book she is wonderfully successful. Quiltmakers and all others with an interest in textiles or design will find Quilt Artistry as inspirational as it is practical.
