

# Think And Grow Rich ~ Original 1937 Version: Including Updated Workbook Using The Christiansen Code For Women, Men, and Children Of All Ages

Why is this book unique? because this is the original 1937 version and the updated workbook, Think and Grow rich has been used by millions of business leaders around the world to create a concrete plan for success that, when followed, never fails. About the author: As a young special investigator for a national business magazine, Napoleon Hill was sent to interview Andrew Carnegie. During that interview, Carnegie slyly dropped a hint of a certain master power he used; a magic law of the human mind-a little known psychological principle that was amazing in its power. Carnegie suggested to Hill that on that principle he could build the philosophy of all personal success-whether it be measured in terms of Money, Power, Position, Prestige, Influence, or Accumulation of Wealth. Included in the book there is a secret. The secret to success. It is mentioned in each chapter amongst stories of paths to success and various helpful tips and strategies. Hill never explicitly tells us exactly what that secret is. Its up to the reader to figure it out and I created this workbook to help you read between the lines and decipher back when I read the book I figured out the secret and created this step-by-step plan. This will resolve all ambiguity once and for all. You will find detailed evidence based on the clues Napoleon Hill provided and points out exactly where it is in every chapter of Think and Grow Rich, just as Hill said where it would be, along with plenty of examples, logic and reasoning to support the validity of the hidden secret. All achievements, all earned riches, have their beginning in an idea. You might well remember that nothing can bring you success but yourself. If you are ready for the secret, you already possess one half of it. ~ Napoleon Hill
