

Equinox (Equinox Series Book 1)

Kathy, a young and untouched witch, has been selected as an Equinox Maiden, her covens highest honor. But nobody seems to know what an Equinox Maiden actually is, until one night when Kathy is called into matriarch Natalie Streichs office. There, shes told of a generations-old pact between the witches and the shifters, the Wild Hunt, and the true importance of her pure, untouched status... Book #1 in the Equinox Series 2- Domination 3- Reckoning 4- Generations 5- Legacy Warning: This story contains some adult language, sexual situations, and werewolf sex. Not intended for readers under 18. Excerpt: He planted his hands on either side of my head and towered above me, casting a shadow the size of an elephant. I wondered how we would fulfill the actual mechanics of the act, considering our difference in size, when he began to shrink. I turned my face to watch his claws retract into his fingers. His knuckles looked a little less hairy than before. When I looked back up at his face, he was still wild and untamed, but his yellow eyes had a softer quality, and he had an actual mouth with a pair of surprisingly succulent-looking lips. May I kiss you? he asked with his new mouth. I nodded, suddenly unable to breathe. He lowered his face and inhaled deeply before he pushed his whiskery mouth against mine. He had an earthy, irony kind of smell, nothing like Marcuss manufactured cologne scent. I parted my lips and let him explore my mouth. When my tongue brushed against the tips of his fangs, a thrill shivered down the length of my body. As Damon kissed me, his hands roamed my body. I parted my knees invitingly, letting him feel my outer lips. The pads of his fingers were rough and calloused, again very different from Marcus, whose privileged life under our High Matriarch left his hands as soft as a hand models. Let me know when youre ready, he said as he stroked me. I felt a surge of desire but

kept my mouth shut. Even though it was my first time, I had talked to Tatiana on enough morning-after phone calls to know that getting warmed up was just as important as the marathon itself. Damon lowered himself between my knees and pushed his head under my skirt, tickling the skin of my thighs. I gasped as I felt the first light touches down there. Hows this? His voice was slightly muffled. My back arched. Ah! That feels amazing, I managed to say. I regretted comparing Damon to Marcus. He was nothing like him, at all. Approximate length: 6,600 words.
