

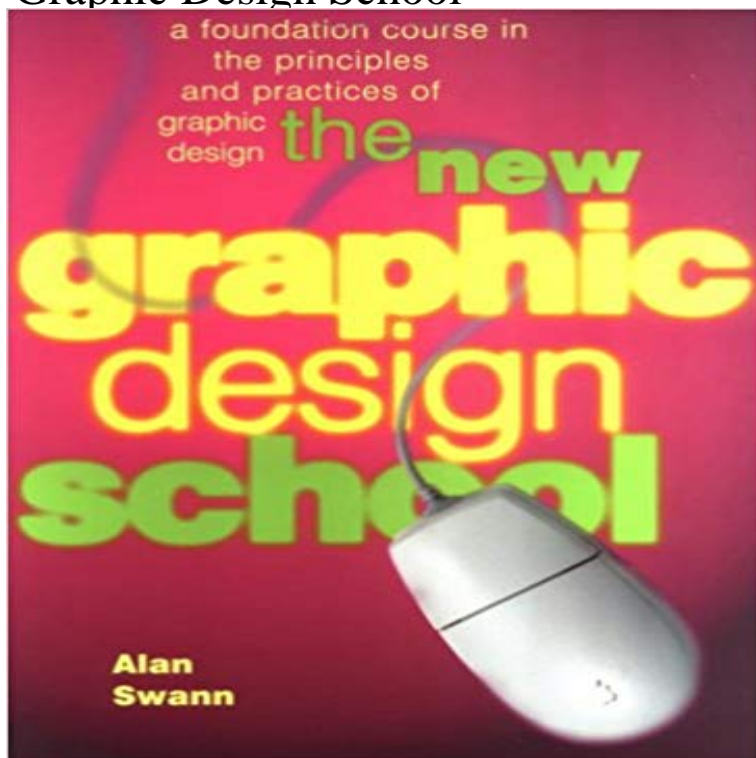

## Graphic Design School

A thorough, carefully structured course in graphic design compiled by a practising designer with 20 years of experience. Completely revised and updated to cover computer-aided design and the use of software applications in all aspects of commercial design. Practical guidance on design for magazines, books, packaging, advertising, and corporate design. Tips on producing professional work from leading design practitioners. Illustrated in full color throughout, including projects for students to work through and solutions to real-life problems.
