

Fire Chief Cars 1900-1997 Photo Album

When responding to an emergency in the early 1900s, the fire chief rode in a horse-drawn buggy. In some fire departments today the chiefs car is still referred to as the chiefs buggy. Coverage in this book begins with those early buggies and highlights the various automobiles, light trucks and mobile command posts used throughout the 20th Century. Filled with dozens of archival photographs.
