

PowerPoint Reality: Slides in Real Time for Real Audiences with Real Easy Steps

This distinctive and visually-engaging text provides readers with foundational information on effectively communicating with their audiences with the use of PowerPoint visual support. Using a communication theory perspective, Sawyer emphasizes and establishes PowerPoint as a link between the speaker and their audience, allowing listeners to visually picture the speaker's message. The author supplies readers with instructions on how to create audience-centered templates and unique delivery techniques that will separate the reader from other bland presenters. Whether presenting to a large public audience or in a small private setting, this PowerPoint text gives readers new insight on connecting with their audience through powerful, effective visual representation of their speech.
