

## Fun With An Austin Seven (Fun With Motoring Series Book 3)

The Austin Seven is one of the most iconic cars of all time. In designing the Austin Seven, Sir Herbert had paid attention to what the public were asking for. He had been listening to their calls for a simple car that was designed to be used rather than to show off, that was nothing more than a means of transport, that was comfortable and practical and that offered those in it shelter from the rain. He knew that if they wanted any additional features, they could always customise the car themselves. This short book lets you experience what it is like to own and drive this famous car. It gives you an under-the-bonnet and behind-the-wheel glimpse of this all-time classic. It features the authors rare military version that was converted to civilian use.
