

Gyula Kosice in Conversation with Gabriel Perez-Barreiro

Gyula Kosice (born 1924) is an innovative Argentine artist and poet. His constructions and sculptures were inspired as much by local discussions and disputes in the cafes of 1940s Buenos Aires as by the international avant-garde. In dialogue with Gabriel Perez-Barreiro in this latest volume from the Fundación Cisneros Conversaciones/Conversations series, Kosice recalls his contributions to an era of hotly debated movements and manifestos; the magazine Arturo; the formation of Arte Madi; his interactive mobiles; and his groundbreaking use of materials like neon and water to articulate a futuristic vision that includes Hydrospatial City, a community suspended in space.
