WARNING: My stories tell erotic tales of monster and beast sex. They are graphic in both language and content, and not for the squeamish. Not intended for readers under 18 years of age. Sidney has only been working as a veterinarian at the Garden of Unearthly Delights for eight months, but that's more than enough time to know she loves her job and the exotic creatures she tends to every day. The lycanthrope beast caught halfway between man and wolf holds a special place in her heart, and in her darkest fantasies... When a routine vet visit turns into an erotic encounter, Sidney can't deny she's secretly been longing for the lycanthrope. But is she woman enough to handle his unique breed of sensual torture, or will he take her to erotic heights too magnificent for a human body to endure? Approximately 4500 words
