

Her Highland Guardian

As a modern-minded woman in the year 2657, Dr. Mary Malone is less than thrilled with the task of documenting the domestic life of a married couple in the eighteenth-century Scottish highlands. But though she is appalled by the fact that men in that barely civilized era were known to take it upon themselves to discipline their wives with a firm hand or a leather strap applied to the bare bottom, no less she is a historian who takes her duties seriously, even when they involve travelling through time to a bygone age. Unfortunately for her, something goes horribly wrong on what was to be her final visit, and Mary is left stranded in the highlands with no way to return home. Worse still, she is no longer merely an invisible, untouchable observer of this world. She is there in the flesh, helpless and alone, and to top it all off, she is accosted and accused of witchcraft almost instantly upon being seen. Clan chieftain Alastair McDonald is pretty sure the mysterious, beautiful woman who makes an unexplained appearance in his village isn't a witch, though the way she captures his heart from the moment he sets eyes on her does seem like magic. When he learns the truth, he realizes that if she is to be kept safe Mary will have to get used to doing as she is told. He is more than ready to teach her obedience, but what she truly needs is a guardian to love, guide, and care for her. Alastair is not a man to be trifled with, and when she persists in defying him Mary quickly discovers that a bare-bottom spanking is not the only way to punish a naughty little lass. But though she blushes to admit it, his dominance excites her more than she ever could have imagined and she soon finds herself yearning for more. Yet even as she grows to love her life at his side, she knows that one day she may face a fateful choice. If given the chance to return home, would she leave her highland guardian behind? Publishers Note: Her

Highland Guardian is an erotic romance novel that includes spankings, sexual scenes, age play, anal play, elements of medical play, and more. If such material offends you, please don't buy this book.
