

Home Automation with the Raspberry Pi: Build Home Automation Systems Using the Power of the Raspberry Pi

Build home automation projects with the Raspberry Pi! Written by Raspberry Pi & home automation expert Marco Schwartz, Home Automation with the Raspberry Pi is a complete guide to build home automation systems using the Raspberry Pi. Inside the book, will be guided step-by-step to build exciting home automation projects, without any prior knowledge required. Also, for each project you will be able to download all the code for the project so you can use it as it is, or modify it so it suits your own requirements. Control home automation components from your Raspberry Pi Build a thermostat using the Raspberry Pi board Control your Raspberry Pi remotely Transform your Raspberry Pi into an home automation hub Connect your Raspberry Pi to web services Home Automation with the Raspberry Pi will teach you everything you need to know so you can start building home automation projects with the Raspberry Pi. No matter your current skill level, you will enjoy building all the home automation projects that you will find in this book!
