

Finding a Soulmate: Humorous... Educational... Inspirational... (Social Observation Series Book 1)

The opening book in the Social Observation Series by Owen Thomas Love is a lottery ticket, you're right. However, if you don't think you can improve your odds of winning, you're naive. It's not a coincidence that all the people you know in your life who are happy in relationships are the most outgoing. They're the ones willing to throw themselves into social situations to meet new people and experience new things. They're the ones unhappy that they're sitting at home on the computer instead of sitting in a bar with good-looking company. They're the ones not settling for the loneliness that many of us accept as being unlucky in relationships. Cristiano Ronaldo wasn't born with unbelievable skill on a football field, he worked hard to achieve it. Catwalk models weren't born with the ability to hold an audience's gaze, they worked hard to achieve it. Morgan Freeman wasn't born an inspirational actor, Lady Gaga wasn't born a superstar, and when Michael Jackson was born nobody knew his name. When people meet their soulmate, they often deserve it. I encourage you now; go out and earn the right to meet yours. Designed to make you laugh, reveal some home truths and open your eyes to the realities of finding your soulmate. This book will help you to self-analyse your life to determine whether your actions are admirable, admissible or abominable.
