

# I Still Do: Tips for Saving Your Marriage, Preventing Divorce and Rekindling That Flame

Marriage is one of the most significant aspects of living, and is the significant commitment two people can make in love and in life. Becoming husband and wife is beautiful, and unifies two people in celebration of their relationship. However, this commitment isn't easy. It is a lot of work, and the relationship needs a lot of attention and care. Therefore, entering into marriage is a serious step to take and should be given a lot of thought. Due to the complexities of marriage, it is not unusual for couples to experience marital problems along the way. However, many couples ignore these problems thinking that these aren't severe enough to cause significant damage. This is where things can go wrong. You must remember that letting problems accumulate unsolved build up into big roadblocks in your relationship, and can eventually destroy it. So, if you find that you're in serious trouble and are afraid that your marriage is falling apart, is there anything you can do to actually turn it around? Well, in reality, there is. With a positive attitude and taking steps that we'll discuss here, you can be proactive and save your marriage with the one you love. Marriage is a wonderful life commitment that needs your constant nurturing and efforts. If you are currently down and out, and feel that your marriage is irreparable, don't lose hope. There are things you can still do; things that are effective and plausible given the right amount of motivation and hard work. Remember that at the root of your marriage is love. So, use this love to motivate you to move forward and risk yourself to save your relationship, and to become stronger and better as a couple. Fearing failure won't help you, so take that leap of faith, do what you need to do, and more often than not you will reap the rewards.
