

Natural Cleaning Recipes: Non Toxic Products for the Eco Friendly Home

Books are written about recipes all the time, but Natural Cleaning Recipes is a bit different. This book focuses on cleaning recipes that can be used to sanitize not only the home, but anywhere else that needs cleaning as well. What most people don't realize is that a lot of simple ingredients that they have in the kitchen can safely help to clean up a mess and kill germs. Protecting yourself from breathing in harsh chemicals while cleaning is very important! In this book the author explains what the process of natural cleaning is, and also how various products can be used to clean a number of different things. The book is ideal for anyone seeking to be more environmentally conscious. The cleaning products that you can make from these recipes can not only be used in the home, but may be used in the office as well. There are even recipes that will help you clean your car! If a stronger cleaning solution is required, then suggestions are made for chemical based alternatives that are not extremely hazardous. This simple book will help you take care of the majority of your cleaning needs naturally and safely.
