

Let Me In

Submission didnt come easily to Miranda LaVoie, least of all to a man like Mace Kennedy, who everyone in town but her seemed to be chasing. But she didnt need a man - didnt need a dom, especially, she was quite sure. Her streak of independence was a mile wide, thanks to someone in her past that she had been stupid enough to trust with a knowledge of what it was she craved between the sheets. Mace had known hed wanted Miranda from the moment hed seen her - as she was gracefully gliding away from him, which she seemed to do a lot of. But he could be a patient man when the goal was worthy enough, and his head, his heart, and his loins deemed that having her in his arms, beneath him, or over his lap was more than worth any expenditure of time or effort as he fought to banish the shadows of fear he saw in those beautiful eyes.
