

## Japanese Cowgirl

When I was in the Air Force, one of my duty stations was at Tachikawa Air Force Base. Like most of the other young, single men, I liked to go out to the nearby sin city and find a young woman, or josan, to fuck. This is the story of one of those times, and one of those women and of how and why the night has stayed on my mind since then. This is a short story (about 2,500 words) describing the coupling of a sexy young woman and me. The descriptions are graphic and the wording is explicit. This book is intended for adults only.
