

LADIES ON A PLATE

Adam is a photographer in the Victorian era, struggling to make ends meet. Chance provides an opportunity to earn a better income by photographing nudes. The only trouble is, his clients are always seeking that little bit more detail - that little bit more of an intimate act exposed upon the paper. Adam and his wife have to struggle to find women and couples willing to be photographed in such detail, while Adam has to overcome the limitations of the early Victorian photography where each exposure requires the subject to remain still for several seconds. This is a fictional take of 17,000 words that includes sexual scenes written for an adult audience. Please do not read if such acts offend you.
