

Long Time Coming

In this classic tale, a woman is reunited with the man she has loved for years, and must reveal the secret that will jeopardize her chance for happiness at last. He arrived out of the blue, a flesh-and-blood phantom from the past in a sports car as sleek and sexy as Law Kincaid himself. The world-famous astronaut was as devastatingly attractive as the first time Marnie Hibbs had laid eyes on him, 17 years before. But she well knew the perils of falling for a ladies man like Law. And this time she had someone besides herself to protect. Law is determined to discover who is sending him anonymous letters claiming hed fathered a son he knows nothing about. Showing up at the Hibbs return address from the letters seemed like a step in the right direction. Marnie swears she isnt the guilty party, but when Law meets her son, its like a one-two punch to his solar plexus. The boy is nearly the spitting image of Law. Law cant remember sleeping with Marnie; then again, he cant remember much about his crazy past. But theres more to it than that: Marnie claims the boy isnt biologically hers. As the tension between them becomes unbearable and the attraction undeniable, Marnie is forced to reveal a long-held secret...one that might cause her to lose both the boy she loves more than anyone, and the man she desires more than anything.
