But he cant have her because shes Jaxons virgin bride, and Jaxon is the chief of the Krypts and stronger than Argon. And so, Argon has no other choice but to watch Jaxon and Concordias love plays from the distance which turns out to be an unexpectedly hot experience. But the rivalry between the Krypts isnt the only thing complicating Concordias life. Jaxon introduces her to his secret cave chamber where he offers her a very steamy lesson in BDSM. Concordia realizes that shes falling in love with this man, but there is one thing bothering hershe doesnt know anything about him. Who is Jaxon really? And where does the Krypt tribe of half men, half apes, who live on planet Maaron 5, come from? Concordia must talk to someone neutral about her problems. She decides to call her sister Tammy. What Concordia doesnt know is that shes being monitored by the air patrol from Earth sent to track her down. When the air patrol intercepts their phone call and threatens to seize her vessel, Concordia is faced with a very difficult decision should she stay with the Krypts or should she go?
