

Meditations on the Book of Job: A graphic adaptation

A graphic adaptation of the oldest book in the old testament of the bible. It is the story of one man's journey through the very depths of adversity. What it means to truly lose everything, material possessions and the perhaps the most basic thing of all, one's health and well being. It focuses on the question of why good things could seemingly happen to bad people and gives a peek behind the curtain of the surprisingly bigger spiritual picture. This epic story is told through a series of exciting and visually stimulating paintings that reflect a number of movements that characterized the era we now call modern art such as cubism, expressionism, abstraction etc.
