

# The New Independent Home: People and Houses That Harvest the Sun (Real Goods Solar Living Books)

Potts original book has become one of our best sellers and flagship of the series of popular Solar Living Books we have produced in conjunction with Real Goods Trading Company. Because of its impact in bringing the almost unknown promise of solar energy to thousands of readers, one longtime observer of energy trends described the publication of the original Independent Home as the most important event in the solar industry in more than a decade.
