

Midnight Eternal

Midnight Eternal Oliver Durant finally feels complete. With his butterfly now wearing his collar, he begins to introduce her to his world, taking her to his BDSM club and introducing her to his family. Things progress rapidly and she feels safe and welcome with them and his species. The longer they are together, the more she starts to become like his kind, offering him hope that he will be able to be with his mate for the rest of his life. While Rebecca Summers is new to the BDSM lifestyle, she adapts quickly and serves her Master well, giving him everything he asks for. She loves pleasing him and spending time with his family, who has given her the sense of belonging she's yearned for since her parents' tragic deaths. She can't imagine denying Oliver anything, and even asks to undergo the genetic transformation to become one of his species. Days before the event, they are given some news that changes everything. Can these two find their happily ever after? Or does fate have other plans?
