

The Master Key System: truepowerbooks Proper Edit

This True Power Books edition of The Master Key System presents the original text clearly and without any editorial additions. Your whims, your wishes, your fancies, your ambitions may be thwarted at every step, but your innermost thoughts will find expression just as certainly as the plant springs from the seed. Thought is an active vital form of dynamic energy which has the power to correlate with its object and bring it out of the invisible substance from which all things are created into the visible or objective world. The possibilities of Attention when properly Directed are so startling that they would hardly appear credible to the uninitiated. Thank You and Good luck!
