

## Honour

Honour is a horticulturist who has been blackmailed into handing herself over to Raiders. She had no idea that they were trading her for cold, hard cash. Trapped on a strange world, being groomed for a male she had yet to meet, Honour had to admit that even the alien races of the Nyal Imperium had begun to feel like home. The host lives to serve the forest of Yalki and all the worlds in the Yalki system. He is out to choose a bride that not only matches his personal frequencies, but also compliments his personality. It is a search that he is willing to put a lot of attention into, especially when his chosen finds ways to avoid him on the dream plane. That is the kind of woman he is looking for, intelligent and sneaky. He might be in love.
