

Nightingale: A Paranormal Romance of Vampires, Werewolves & Shifters

With a demanding career and a boyfriend whose only contribution to her life is mind-blowing sex, Jayde Nightingale needs a change. She finds that change from an unlikely source. When she finds a man, slumped on the side of a road, the trauma nurse jumps into action, but cant shake the attraction she feels toward the handsome stranger. Helping him begins a chain of events that will flip her world upside down. She develops insatiable needs that both frighten and excite her. With a new man making his way into her life, Jaydes resolve will be tested. Trust the mysterious stranger or risk succumbing to instincts she wont be able to control? Note to Reader: Nightingale is a 28,000 word Paranormal Romance story but certainly not about pretty vampires. The characters are gritty and raw. They have hot, steamy sex and talk nasty adult language while their doing it. Theres violence and blood, motorcycles, tattoos, men with muscles , women with curves, a whole lot of leather and some chains here and there. So yeah, if you dont like that sh** dont read this book. But for those of you that do, youre in for a treat. So buckle up the straps and enjoy ride. I know you will!
