

Photoshop Cs5: Advanced, Aca Edition + Certblaster (ILT)

Photoshop CS5: Advanced, ACA Edition, is the second of three titles in this series. In this course, students will learn how to use color fills, gradients, patterns, and overlays. Students will also create layer masks, grayscale masks, and clipping masks to show or hide various parts of an image. Students will then learn how to create and edit paths and convert type to paths. In addition, students will learn how to apply a variety of creative effects, use the Vanishing Point feature and Smart Filters. Finally, students will learn how to work more efficiently in Photoshop. Course manual comes with CertBlaster exam prep software (download).
