

Coloured Pencil Shading Practise Book - Nude Women: A variety of coloured drawings with outlines and coloured reference charts

A coloured pencil shading practise book. This book has a variety of nude and semi-nude drawings of women to help you practise your shading skills by using a reference picture to copy from. Although the book does not give step-by-step instructions on how to shade, this method is enjoyable and will improve your drawing skills. Each drawing has two shading options to choose from. 1) A simplified shaded version for beginners or for a first time shade. This includes a definite outline and a colour reference chart to help you to compare your shading to the original render. 2) A more detailed shaded version for the final shade or for more advanced shaders. This version also includes a very faint outline as a guide and a colour reference chart to compare your final shading to the original render.
