Joe was born in a wealthy New England family but unfortunately his mother died young and his father remarried. When a new generation of children entered the family Joes status appeared degraded. After college graduation he decided to take the offer of one of the familys summer homes to relocate and start a new life. Here the household maids subtly lead him into a life of female domination. He was outed to those he cared most about and put into formal training to become a maid. His female domination finally becomes complete with sexual reassignment.
