

Pisces Phenomenon (Paranormal Romance) (Zodiac Gatekeepers Book 1)

The Constellazogens spawned the legends behind much of the human beliefs in astrology. Their world is full of magic, power, immortality and egos that tend to cloud better judgments. Its also full of honorable warriors who are sworn to protect the people of the Earth. Detective Sirius Baron is one of these warriors. Hes desperately scrambling to cover up a rash of crimes that the humans are calling the Zodiac Zone abductions. Women are being taken based on their astrological signs, and the message is clear the last hasnt been taken. Phoebe Fishers family has always been a bit protective of her. Though she knows that she and they have elements of the supernatural in their talents, she isnt entirely sure why. When she finds herself about to be the victim of the latest Zodiac Zone abduction, she is rescued by Sirius. The instant bond between them both scares her and scorches her heart. As she comes to terms with her special connection to the stars and begins to understand the mysteries of her past, Phoebe also learns how it feels to love and be loved by an immortal.
