# Powerpoint 2010: Basic, First Look Edition, Student Manual

This ILT Series course covers the basic functions and features of PowerPoint 2010. After an introduction to PowerPoints window components and Help system, students will learn to create, save, and rearrange presentations. Then they will format text, use drawing objects, work with graphics, and insert tables and charts. They will then learn to use templates and themes, slide masters, and transition effects. Finally, students will learn to proof, run, and print presentations.
