

# Rainwater Collection for the Mechanically Challenged

This handbook is cute, funny and smart - smart enough to teach almost anyone how to install a personal rainwater collection system. It covers the entire works, from determining how much rainwater you'll need, to troubleshooting a problem pump, hanging gutters, the importance of check valves, how big a micron is, and how to disinfect your rainwater without the use of chemicals. Beautifully produced, it is packed with drawings and photographs to make rainwater harvesting a snap for the do-it-yourselfer. Suzy Banks writes for Texas Monthly Magazine and other publications. Richard Heinichen owns and operates Tank Town, which specializes in installing rainwater catchment systems.
