

Resonance Mates Box Set - Books 1-3

Three complete novels together for the first time in one volume! Over 240,000 words! EPPIE Award Winning Haras Legacy, Davins Quest & Jacis Experiment, from USA Today Bestselling Author Bianca D'Arc. Earth, after the alien apocalypse. Humans are scarce. Women are even scarcer. One family holds the key to changing the fate of humanity for the better...if they can navigate the dangerous alien political system, and forge new, unconventional personal relationships. Post-apocalyptic alien menage romance. Resonance. Its the key to everything. Something the aliens have forgotten in their rush to perfect themselves and their society. Humans are far from perfect, but they do resonate with Alvians and have bred with them in the distant past. The ancient Alvian explorers didnt get lost. They simply stayed on the planet they reported because theyd found their true mates and wanted to spend the rest of their long lives thereon Earthwith their Resonance Mates. Modern Alvians rarely resonate with anyone or anything. In fact, they have almost no emotions at all. They breed artificially and Resonance Mates are a thing of legend. Theyre studying the human survivors, and the picture starts to become clear as certain Alvians begin to resonate with particular humans. Will humanity be able to show their alien overlords the way back to emotion? Or will the Alvians fail to understand, killing them all before they have a chance to live the dream of resonanceeven if it is a little different than the legends say? Necessity means there is more than one true Resonance Mate for each of the few human females left. Can they adjust to multi-partner relationships or will the death of humanity mean the ultimate destruction of the Alvians race, as well? This box set contains the first three novels of this series: Haras Legacy Davins Quest Jacis Experiment
