

Tentacle Creatures on Earth: A New Beginning (Sci-Fi Futanari Erotica)

In this sequel to the series Invasion of the Tentacle Breeding Creatures from Space, the Earth is now ruled by symbiotic, alien tentacles that exist only for sex and other lewd, lustful acts. Alexandra has awoken on a space station with the last vestiges of the human resistance. She can't remember anything from after the initial tentacle attacks, but is being recruited to help stave off the advances of unthinkable alien-human hybrids that want nothing more than to convert the rest of the crew to their perverted horde. Will Alex be able to help the resistance fight off the oversexed aliens, or is she destined to be violated in the same way as so many before her? This 5,600 word erotic short story contains alien/human hybrids, dickgirls / futanari, oral sex, anal sex, and continues the adventure from Invasion of the Tentacle Breeding Creatures from Space series.
