

## Scripture, Metaphysics, and Poetry: Austin Farrers The Glass of Vision With Critical Commentary (Ashgate Studies in Theology, Imagination and the Arts)

This book offers a critical edition of arguably the greatest work of English theology in the 20th century: Austin Farrers Bampton Lectures published as *The Glass of Vision* in 1948. Farrer was an interdisciplinary genius who made original contributions to philosophy, theology, and biblical studies, as well as to our understanding of the role of imagination in human thought and Christian doctrine. According to Farrer, the three primary themes of these lectures are scripture, metaphysics, and poetry, individually and in relation to each other. The lectures defend his famous theory of divine revelation through images rather than propositions or events, a provocative account of the place of metaphysical reasoning in theology, and a literary approach to the Biblical text that was decades ahead of its time and is still controversial. *The Glass of Vision* has generated a rich and interesting interdisciplinary conversation that has lasted for decades, starting with commentators such as Helen Gardner and Frank Kermode. In addition to Farrers full text, this critical edition also contains an introduction to the significance and context of Farrers thought, and a selection of thirty-years worth of commentary by leading British and European theologians and literary scholars: David Brown, Ingolf Dalferth, Hans Haugh, Douglas Hedley, David Jasper, and Gerard Loughlin. Of interest to literary and biblical scholars, theologians, and philosophers, this book holds particular value for those exploring the nature of imagination in contemporary thought and scholarship.
